

TOURNEY BRIEF: 2019 SPRING PIKE Online

This second year event was an OKFS favourite last year with the *fish-at-will* online format. We have chosen these dates so anglers may intercept those spring monsters before they transition from their migratory waters to deeper cooler waters for summer.

Nearly every angler in Ontario has encountered Northern Pike at some point during their fishing adventures, and usually by accident while fishing for other species. Pike are no accident in Ontario and there are some absolute slobs!
